

Performance Foods

Presented by Dan Young, Performance Foods

Understanding the needs of health clubs, I know that full pallets of Disinfectants are probably not workable. So, we at present have units at the Fed X Testing Lab. Once confirmed that we can safely ship single units, we will be in a position to ship single units to all who need them. We should have test results in a couple days. The cost per pail is \$55/ea plus freight. We will quote each location the freight cost and handle all logistics. I know that this is a lot of info, and we were planning on sending to all our customers as we all began to ramp up, but if want to share ahead of time, we're glad to help.

It is our goal that during these very turbulent times, you stay in pace with the fluctuating market conditions of the day. Expect to see a weekly update as to what is happening in the market and how we are addressing it.

Presently, Hand Sanitizer, Disinfectants and PPE items are still in hot demand. There are continued shortages with only a finite number of producers of raw ingredients. It does appear that there are scam artists taking advantage of the situation, making promises and not delivering or delivering products that are not approved by the Federal Government. Be careful!

Bevolution and Simple Again have joined forces to bring you all the products listed on this update. Our combined experience in delivering superior products and customer service are unparalleled and span many decades. Our products have all undergone all the necessary and intensive regulatory certifications needed to comply with all Federal Guidelines.

PPE Items

We now have the ability to provide masks and gloves. Our prices are most competitive. It is our goal to help all companies in this country, not to take advantage. We are now accepting orders for the first week of May. There are large minimums, but we are combining orders to help meet the needs of each of our customers. Basically, if you give us an order, it will remain in que until we have hit minimum. This process could take up to a week. Once shipped, it is 8-10 days until we receive and deliver to you. Call for pricing!

Hand Sanitizer Pallet

These prices are all landed! We begin shipping the week of the 13th. We are now accepting orders for the first week of May. Purchase Orders currently on hand will be honored and deliveries are now being scheduled the weeks of April 13th, 20th and 27th. These are being prioritized based on when the order was received and if there is a dire need by the customer. It is our goal to work with everyone to meet your specific needs. So please let us know how we can assist.

Case

Beginning the week of April 20th we will be stocking both 1 Gallon and ½ gallon bottles. We will be sold by the case and less than a pallet. Freight costs will be quoted per delivery.

Disinfectant

Foster 40-80 is an industrial-grade disinfectant that is in a ready to use form. It is certified to be an effective agent to kill Viruses like Covid 19. See attachment. It is not caustic like bleach. It is a spray-on or wipe-on product and is perfect for porous and non-porous surfaces like equipment, shelving, floors, or factory machinery. Purchase Orders currently on hand will be honored and deliveries are now being scheduled for this week. We are now accepting orders for delivery in two weeks or before.

Who We Are:

Just to give you a little background on our company; we have been in business for 21 years supplying organic whole foods and equipment to the juice bar industry - primarily in health clubs, hospitals and universities. We have appx 3,000 installations in North and South America. Since the sky fell, we've helped one of our partners to retool their plant to begin making Hand Sanitizer. Because of our integrity the state-of-the-art manufacturing facility in Frostproof Florida, this transition was performed in record time and we have met all the guidelines set forth by Local and Federal Governments. We have created a superior product!
